

# **“FIBERTEX”**

## **SPECIAL INSTALLATION RECOMMENDATIONS**

*Thank you for purchasing this unique hand-crafted wallpaper. For best results, please read these instructions thoroughly before beginning installation.*

**NOTE: THIS WALLCOVERING IS NOT PRETIMMED.  
YOU MUST DOUBLE CUT THE SELVAGES TO ENSURE A PROPER INSTALLATION.  
FINGERPRINTS ON THE EDGES OF THE PAPER ARE NOT DEFECTS.  
THE EDGES OF THE PAPER WILL BE TRIMMED OFF DURING  
INSTALLATION**

Walls must be properly primed and prepared before hanging wallpaper. Special attention should be given to removing any old paste. Use only a pre-mixed clear vinyl adhesive such as Roman Adhesive PRO-880. Paste the back of the paper, and allow to book for Approx. 4-5 min. to reduce curling of the seams. As recommended for nonwoven papers, you may also wish to paste the wall.

For best results, position 2 panels on the wall and overlap the selvages. Use a very sharp blade and double-cut through both papers at once. Approximately 1.5”- 2” should be trimmed from each selvage. Finished width should be approx. **27” Wide**, but trim width may vary from sheet to sheet. You may see imperfections on the selvages caused by handling the paper during our hand done process. Be sure to trim off all these areas. Replace the blade often to ensure the best cut.

There is no repeat or UP direction to this wallpaper. Handmade papers will panel slightly. To reduce the effect of paneling and shading, it is sometimes effective to reverse hang every other strip. This paper may panel slightly which is not considered a defect.

Do not allow paste to dry on the front of the paper. This may tarnish the face of the paper. Remove any paste with a clean, damp (NOT WET) sponge and rinse again. Do not allow water to remain on the surface of the paper for a prolonged period of time. Avoid using metal tools to install this paper, which may also tarnish and scratch the surface. Do not overwork the seams. For best results avoid getting any paste on the front of the paper entirely.

**The environmental lighting of your installation may create an illusion of shading due to the light reflective quality of the pearlescent and metallic inks.**

## **RETURNS**

If any defects are found, do not install the wallpaper. Return the entire shipment to us for inspection. No adjustments will be made until we have inspected the returned wallpaper. If found by us to be defective, we will make prompt adjustments. If we determine that the goods are not defective, we will charge a 25% restocking fee. **Be sure that what you see as a defect is not an inherent irregularity or the textured effect of this hand-made wallcovering.** We are not responsible for cut or hung material or labor charges. **No returns or claims will be accepted after 30 days from ship date.**
